

Friends Financial Partners

The Kids In Need Foundation and Toyota teamed up for their third annual Big Summer Giveback program, with a record number of Toyota Dealers participating in the program, to ensure students in underserved communities start the year with the necessary supplies. The growth of this program as it enters year three is testament to Toyota’s commitment to supporting their local communities.

From August 1-31, 2024, Toyota donated \$3.00 to KINF for every paid oil change with a tire rotation at participating Toyota Service Centers. In addition, over 40 Toyota Dealerships across the country have committed to \$10,000 donations in their communities.
